

I-Search

I-search means you (the I in I search) will develop a question that you really want to search for. This question needs to be limited to a topic we can find answers to in the BRMS library. Ms. Lamb and Mrs. Babbitt will help you with this.

You will use the BRMS library to locate at least two sources of information. One source must be a non-fiction book. This may limit your choices of questions, so you should have a few questions of interest to you.

You will locate the book source in the library. Read it and take notes. Locate a second source on the internet. Read it and take notes.

You will then organize your notes, make an outline and decide a clear way to present your information to the class. You will have ten minutes to present. Your presentations will happen in late November.
